3. Update UI

Power on the DP132R, take SD card ready outside slot, as the
follow picture shows:

Input #8014 +code(87625761),it would show“ Select Update item”, see the follow picture

Select 3 to UI update, it would show the “update ready” interface.

Insert SD card to slot,

it would show update progress bar.

Finish update, it would return to ready interface, and show the new UI.
